BOARD OF TRADE. Very Interesting Address Made by Preside at

The adjourned meeting of the directors of the Board of Trade was held last evening in the Board of Trade hall, which was largely attended. All members were enthusiastic in pushing the future work of the Board forward as rapidly as possi ble and in a manner which will redound to the credit of the greatest city in Kansas. President Chas. E. Potts made an excellent address before the Board which is

as fololws:

Gentlemen of the directory of the Board of Trade of Wichita: The commercial history of this country has been marked by epochs of about six or seven years of business depression, commonly called bard times, which has been invariably followed by an equal period of prosperous or flush times, that we have now entered upon the latter period there is, I think, no one here present who will call it in question, the immmerable signs of the times are so plain that he who runs may read. The best evidence as proof of this assertion, among other things, is our splendid grain crops, so far, scarcely half marketed, for which there is both a good domestic and foreign demand as fololws:

for which there is both a good domestic and foreign demand which has turned the balance of trade in our favor, thus rendering the money market unusually easy, and with all the

market unusually easy, and with all the other evidences of an improved business outlook, the year has certainly opened cheerfully and everyone is disposed to look upon the bright side of things generally. Locally we are pleased to note the increased number of jobbing houses and agricultural implement establishments which have been added since the opening of the new year to our already respectable number of such concerns, together with the filling up of stores, warehouses, offices and residences by those proposing to become identified with the steadily increasing prosperity of our city. The extension of the Rock Island railroad through to the Gulf, work on which is now progressing mamber of such concerns, together with the filling up of stores, warehouses, office and residences by those proposing to become identified with the steadily increasing prosperity of our city. The extension of the Rock Island railroad through to the Gulf, work on which is now progressing prosperity of our city. The extension of the Rock Island railroad through to the Gulf, work on which is now progressing prosperity of our city. The extension of the Rock Island railroad through to the Gulf, work on which is now progressing series and arrangement of one hunfred (100) dollars. The support of the Rock Island railroad from the Rock Island railroad from the Island are already accomplished facts since the beginning of the year. The long delayed settlement of the Cherokee strip, with its eight million acres of splendid land, appears to be on the verge of being brought about without waiting on the slow move it ments of congress, as from the last advices the settlers to the number of 200 are already occupying the country, and seem willing to take their chances of gene withing to take their chances of gene withing to take their chances of gene will go to take their chances of gene withing to take their chances of gene will go to take the proper will be sure to be made upon the track lepting good shape during the will necessarily spring up along the lines of the firse railroad straversing the strip, will naturally be large and we should be in readiness to meet the demands that will be sure to be made upon the continued prosperity of our city, but we remain saily deficient in some branches which he had to retard the progress of those already established. I would call the attention of our committee on jobbing houses to the importance of the three railroad structur

Bulliers.

EX-GOVERNOR THAYER AND PARTY. A well known citizen of western Kansas Distinguished Visitors From Nebraska Pay was brought here yesterday from Tacoma by the United States deputy marshal of

Compliments to the Peerless Princess. Ex-Governor Thayer and party, consist ng of some thirty ladies and gentlemen from Nebraska, passed south on the Santa which will be held next month. An indict Fe train last evening, en route to La Porte,

Socretary Pierce of the Board of Trade him with embezzling funds from the government will bolding the nosition of the members of the party were with postmester in one of the cities of of the members of the party were with Governor Thayer several years ago when they visited Wichita, and all expressed themselves surprised to see the business ing to Tacoma to an adjoining city.

growth of the wholesale business and were free to say that the settling of the discrimination in freshelp and the settling of the discrimination in the settling of the settling of the discrimination in the settling of the s ination in freight rates by the railways would be a great advantage to all interests here, and be the means of calarging all on the boat and with heroism worthy of a branches of wholesaling here. They kansas woman she hastened to the near-were more than surprised at the est point she could communicate with the country through which they had passed. It was beyond their expectation, and she braved the danger of the angry ocean thought if Wichita had such a country and rowed for eight miles till she surrounding her, there was no question as to her future growth and prosperify. Henry on deck she informed her husbf (r. Wiley, of Kerney, Neb. said Nebraska and but he declined taking advantage of needed more direct rail connection with the opportunity he was given of dodging the Gulf and an outlet through Wichita the officer and upon hearing the officer was what they wanted and would work was on board the ship he went straight with Wichita to secure it. They regretted way to his state room and gave himself they did not have the time to stop over up. The officer admired the conduct of and take a drive over the city, but their the wife, took her to the nearest per and time was limited. Governor, Thayer is a provided for her return to Tacoma. The very pleasant gentleman and is as prisoner claims that he had no intention agreeable, entertaining and it might be of doing wrong and lays all the blame to added young looking, as he was ten years | whisky drinking.

THE NATIONAL TEMPERANCE HOSPITAL.

Sometime ago, at the W. C. T. U. county convention, it was decided to remember in a substantial manner our affiliated interest at Chicago, the National Temperance hospital, and as there is none of the forty departments of the white ribbon army, whose work is so little understood by the masses as this, it may be well to state that it is the only hospital in the United States that has the one grand gov-erning principle underlying it—that all diseases can be more successfully treated without alcohol than with it. This method has been attracting the attention of the most thoughtful and eminent scientists, and upon its staff are the most noted physicians in the city, and patients are given every care and attention. In 1884 four conservative W. C. T. U. women (one of whom was Mrs. Mary B. Willard) met, and organized later, in 1886, to forward the experiment. Mrs. L. H. Plumb of Streator, Ill., advanced \$3,500 to carry on the work the first year.

"TOPEKA, Kan., Feb. 9. diseases can be more successfully treated

perment. Attaining school. The difficulties which met these earnest workers, the obstacles that have been surmounted, cannot be told in these few lines, but the W. C. T. unions in the various states have nelped by fitting up rooms, with rugs, pictures, easy chairs, snowy beds, furnishings and supplies. That many friends are greatly interested and have gone down into their peckets for good contributions, is evidenced by the good news made known at the annual meeting in October that for the first time in its history every debt was paid and a balance on hand of \$538. The total receipts for last year were \$85.87.25; of this \$5,590 came from patients and \$844 from outside nursing by pupils in the Clara Barton training school. Many interesting cases in the cure of the morphine and to bacco habit could be cited. One of the features of the new hospital, will be a ward for the treatment of dipsomania the work is largely increasing the great distribution before the an-

rison might weil feel prond of had they visited the Peerless Princess. He put up at the Carey, and, as he refused to see only each round, or when Sullivan made his for themselves.

The question is, will she do so! From what I know of the enterprise and push of your citizens I believe she will.

Every breeder in the west is identified with you in this matter and I believe most of them will subscribe stock.
